

DUAL DISPLAY PROFESSIONAL GEOMEMBRANE WELDING MACHINE WIN 900D

PRODUCT INFORMATION

Dual Display Professional Geomembrane Welding Machine WIN 900D

The welding machine adopts advanced heat chip structure, high power, high pressure, fast welding speed, suitable for 1.0-3.0mm thick film material welding machine, suitable for HDPE, LDPE, PVC, EVA, ECB, PP and other hot melt materials, Products are used in water conservancy, aquaculture, landfill, chemical and mining, sewage treatment, roof construction and other fields of waterproof and seepage control engineering.

This machine is not only able to show the welding temperature and welding speed, the control system adopts closed loop control, regardless of the external voltage change, or upward or downward direction of welding under the condition of the external environment changes, such as negative feedback automatically adjust the setting temperature and speed, make the welding parameters is more stable, more reliable welding quality.

SPECIFICATIONS

Model	WIN 900D
Rated Voltage	230V/120V
Rated Power	1800W/1650W
Frequency	50/60HZ
Heating Temperature	50~450
Welding Speed	1.0-5m/min
Material Thickness Welded	1.0mm-3.0mm (single layer)
Seam Width	15mm*2, Interior Cavity 15mm
Weld Strength	≥85% material
Overlap Width	12cm
Digital Display	Temperature and speed dual display
Welding pressure	100-1000N
Body weight	13kg
Warranty	1 year
