

HOT AIR HAND EXTRUDER WIN 600B

PRODUCT INFORMATION

Hot Air Hand Extruder WIN 600B

This plastic extrusion is the first in China to provide dual independent heating of base material and welding rod, digital temperature control display, motor cold start protection and other functions. This extrusion welding gun uses 3400w hot air blower to heat the base material independently, and is equipped with an anti-scalding design welding nozzle. The Japanese Hikoki electric drill is used as the extrusion motor. It has a small body, convenient operation, strong power, continuous welding. It has high-efficiency welding quality for thick plastic plates. WIN 600B is mainly used for welding of PE, PP and other thermoplastic materials such as plates, membranes, pipes, water tanks, and plastic parts.

SPECIFICATIONS

Model	WIN 600B
Rated Voltage	230V
Frequency	50/60HZ
Extruding Motor Power	800W
Hot Air Power	3400W
Welding Rod Heating Power	800W
Air Temperature	20-620 \square
Extruding Temperature	50-380
Extruding Volume	2.0-2.5kg/h
Welding Rod Diameter	3.0-4.0mm
Driving Motor	Hitachi
Body weight	6.9kg
Certification	CE
Warranty	1 year
