

# LIGHTWEIGHT MINI WATERPROOF HOT AIR WELDER WIN-RM1

## PRODUCT INFORMATION

### Lightweight Mini Waterproof Hot Air Welder WIN-RM1

The new generation of roofing hot air welder RM1, affordable price, mini shape, 3400W high-power hot air blower and equipped with closed-loop digital display temperature and speed control panel, to achieve high-quality thermoplastic waterproofing membrane welding (PVC , TPO, EPDM, ECB, EVA, etc.), the overall performance is much higher than products of the same level.

RM1 is a hot-selling product among roof welding machines. We have more than 15 years of experience in this industry and have a good reputation in this field.

One-key walking button, it is more convenient to move the machine in standby mode.

One-key walking button, it is more convenient to move the machine in standby mode.

Adopt closed-loop control technology (digital display + main board control) to ensure stable parameters and ensure the overall welding quality.

Small orders accepted.

To meet small batch customized services.

## ADVANTAGES

### **Mini shape with light weight**

Lightweight, easy to move, and can be welded without barriers.

### **Physical button + LCD display control panel**

The welding temperature is stepless adjustable from 50-620°C, the welding speed is stepless adjustable from 1-10 m/min, the failure rate is low when used outdoors, and it is durable.

### **3400W Brushless motor**

The maintenance-free brush-less motor gives it high durability with 70-100% Infinitely Adjustable air volume; And no need to replace the carbon brush.

### **Outdoor power supply design**

Specially designed for outdoor power supply, the power supply voltage range of 180-240V can still be used normally.

## SPECIFICATIONS - 1

Model	WIN – RM1
Voltage	230V
Power	3600W
Temperature	50~620
Welding speed	1-10m/min
Welding seam	40mm
Dimensions	(length × width × height) 530x330x280mm
Net weight	20kg
Motor	Brushless
Air volume	70-100% Infinitely Adjustable
Certification	CE
Warranty	1 year
